

The LUMAS Principle

LUMAS is driven by a single idea: making contemporary photographic art available to everyone who shares our passion for it.

Signed, limited-edition artworks should be affordable.

To make this possible, LUMAS releases limited edition artworks in runs of 75-150. This results in substantially lower prices than conventional galleries, where limited edition runs of 3-5 are the norm.

With this concept, LUMAS has revolutionized the traditional art market.

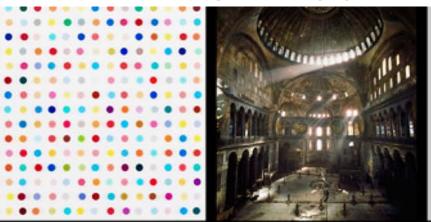

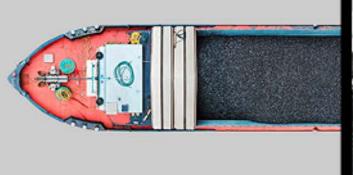

Original Art in Hand-Signed Limited Editions

With more than 3,000 works, and around 250 established artists and exciting new talents, the LUMAS portfolio is one of the world's most comprehensive and best-curated collections of contemporary photography. From Art Basel to Art Stage Singapore to arco Madrid, our team of curators scour the globe, visiting international art fairs and searching for extraordinary pieces that breathe new life into the concept **THE LIBERATION OF ART**.

HAND-SIGNED LIMITED EDITION ARTWORKS

Limited Editions

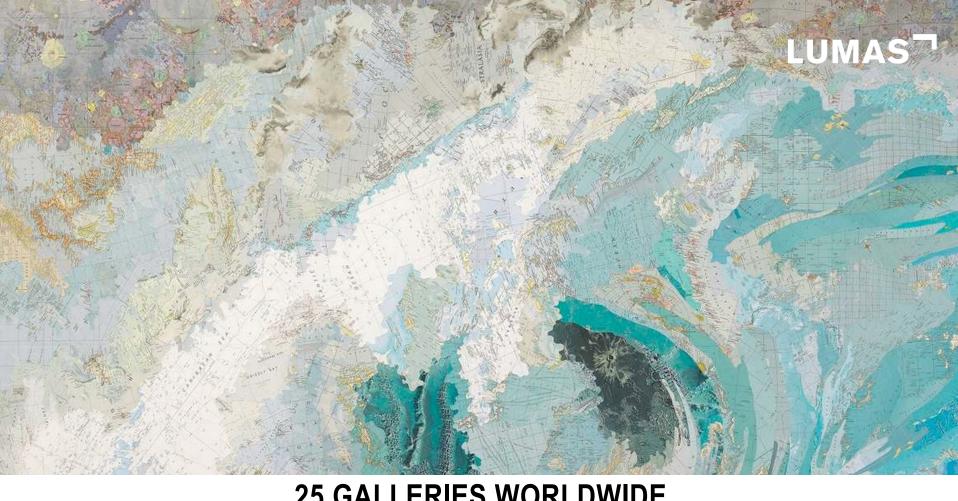

LUMAS fills the gap between exclusivity and mass reproduction, making photographic art accesible through limited editions of 75-150 prints

LUMAS attracts interest from the luxury goods, art, furnishing and digital photography markets.
